

PRESS RELEASE:

Crown Column & Millwork, LLC Gains as a Result of Former Subsidiary's Recent Merger...

Visador Holding Corporation's Crown Column & Millwork gains operational and financial autonomy as a result of the recent merger of Coffman Stairs with P&F Industries' Woodmark International.

Joe Livengood, General Manager of Crown Column & Millwork states, "Everyone at Crown Column & Millwork is extremely happy for our former colleagues at Coffman Stairs and the leadership of Visador Holding Corporation for entering such an exciting and innovative venture with the P&F Industries' companies." "In turn, we are also pleased with the resulting independence and financial restructuring the merger has created for Crown Column & Millwork. Having a firm commitment from our investors and an amended credit facility with PNC Business Credit has served Crown very well as we work to sustain our position of leadership in the column manufacturing category in our industry."

"The recent separation of the subsidiaries of Visador only strengthens Crown's position not only with our financial institution, investors, and suppliers, but with our many valued customers in the US and Canada. Customer satisfaction is at the very core of our business and is the primary focus in our marketing plan for continued growth and success," says Lory Mayne, National Sales Manager.

Crown Column & Millwork, LLC; founded in 2000 and located in Attalla, Alabama has gained recognition in the marketplace as the fastest growing full-line column manufacturing company in North America.
